SOULFUL DINING

# MINDFULNESS & MINDFUL MESS

WE EMBRACE THE WONDERFUL MESS WE ARE  
AND CELEBRATE EVERY ASPECT OF OUR SOUL.

For me, there is a deep connection between a certain environment and the soul. When entering a space, you can sense if it aligns energetically, aesthetically and emotionally with your soul. Whether we feel good in a certain environment is thus decided by the balance of the environment in relation to our own inner balance.

For instance: my home is a reflection of my soul and has a strong impact on my emotional being and the constant evolution of my personality and vice versa.

This means that context in which the balance is created has to be perfect. This is specifically important for eating rituals. A soulful dining experience comes to life when all elements (environment, ingredients, concept, etc.) within this art are aligned.

This goes far beyond the art of cooking and involves the stimulation of all senses. Such a dining experience immerses you in the universe of the creator and aims to inspire participants and create unforgettable memories.

A new collection which is closest to my own philosophy, is without doubt the 'MARIAGE' tableware collection. There's something magical about the way the warm terracotta tones contrast with the serene white - it's like two worlds meeting in perfect harmony. To me, it feels like a celebration of diversity, a "*mariage (im) parfait*" that blends colours, cultures, and styles effortlessly.

Charles

Curator of soulful dining

PORCELAIN

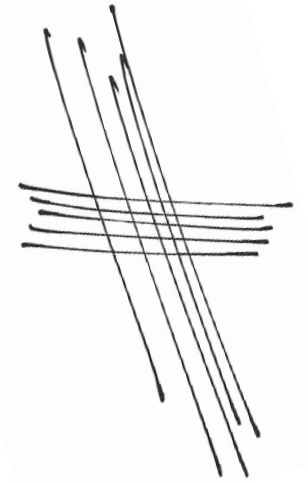

## LEGGERO

### Glaze type

Transparant glaze inside - Matt outside

### Features

- Vitrified porcelain
- Chip resistant
- Dishwasher & microwave safe
- Light in weight
